

**Subject: 911 Reflective Address Signs**

**From: Bay Tree Lakes Volunteer Fire Department**

Several years ago we sponsored an effort to get residents of Bay Tree Lakes to purchase standardized 911 address signs. Many residents participated and still have the 3" reflective signs in either blue or green.

We are sponsoring another drive to encourage all home owners to convert to these highly visible signs. If you drive through Bay Tree at night you will realize that many residents do not have visible signs. This makes it difficult for 911 Responders to locate you quickly in an emergency when sometimes even seconds count. Please help us help you.

If we can get at least 25 residents to order signs we can provide them for \$8.00 each. Please contact Bob Latham at 588-4073 or 876-0717 to place an order.
